

Ankith Subramani Radha

602-697-4653 | asubra90@asu.edu | linkedin.com/in/ankith-sr-444baa220 | github.com/Ankith-SR

EDUCATION

Arizona State University | M.S. Computer Science | GPA: 3.00 | Expected May 2027
Aug 2025 – Present

Vellore Institute of Technology | B.Tech. Computer Science | GPA: 3.39 / 4.0
Sep 2021 – May 2025

TECHNICAL SKILLS

Languages: C/C++, Java, Python, JavaScript

Web Development: React, Node.js, Express.js, MongoDB, REST APIs, HTML/CSS

ML & Data: TensorFlow, PyTorch, Scikit-learn, XGBoost, EfficientNet, Pandas, NumPy, Matplotlib, Streamlit

Cloud & DevOps: AWS (Cloud Foundations), Microsoft Azure, Git, GitHub, Vercel

Core CS: Data Structures & Algorithms, OOP, Database Management, Embedded Systems, Agile/Scrum

PROJECTS

Mushroom Shelf-Life Prediction | AI/ML & Software Deployment
Dec 2024 – Apr 2025

- Designed and built an end-to-end ML pipeline using EfficientNet, ResNet50, CNN, and XGBoost, achieving 87% prediction accuracy
- Engineered a labeled dataset of 5,000+ mushroom images, writing Python scripts for preprocessing, augmentation, and feature extraction
- Deployed a Streamlit web app enabling real-time freshness detection, showcasing the complete pipeline from raw data to production

RIDES Bike Showroom | Full-Stack Web Developer
Aug 2023 – Dec 2023

- Developed a fully responsive web app using React (frontend), Node.js/Express (backend), and MongoDB for persistent storage
- Implemented an admin dashboard for inventory and order management, integrated RESTful APIs for seamless frontend-backend communication
- Managed development using Git version control and Agile practices; deployed on Vercel with CI-friendly workflow

Sentiment Analysis — Brighter India Hackathon | NLP & Machine Learning
Aug 2023

- Processed and cleaned 50,000+ tweets using Python NLP workflows, improving data pipeline efficiency by 30%
- Achieved 85% model accuracy through feature engineering and hyperparameter tuning, reducing training time by 25%
- Secured 2nd place among 20+ competing teams at the Brighter India Hackathon, Bengaluru

Smart Dustbin | Embedded Systems & Real-Time Data
Jul 2022 – Dec 2022

- Programmed microcontrollers in Python and C to automate wet/dry waste segregation using sensor inputs and feedback logic
- Reduced manual sorting effort by 75% through data-driven system optimization and real-time decision pipelines

EXPERIENCE

Customer Service Associate | Arizona State University – Subway, Tempe AZ
Jan 2026 – Present

- Manage concurrent customer orders with accuracy in a high-volume, fast-paced campus dining environment
- Communicate effectively with a diverse campus community and resolve issues professionally under pressure

CERTIFICATIONS & ACHIEVEMENTS

- AWS Academy Graduate — AWS Academy Cloud Foundations
- Microsoft Azure Fundamentals
- MERN Stack Industrial Internship — Ethnus (comprehensive full-stack web development training)
- Published Book Chapter: AI and IoT Integration for Food Safety — predictive modeling and real-time contaminant detection (Oct 2023)
